Relevanța pentru Erasmus+

- **Dimensiune europeană** – Erasmus+ reunește participanți din multe țări, iar reducerea deșeurilor e o prioritate comună în UE.
- **Educație și schimb cultural** – proiectele Erasmus+ sunt despre învățare împreună; sustenabilitatea e o valoare pe care o putem practica și transmite mai departe.
- **Competențe practice** – activitățile legate de sustenabilitate (reciclare, reutilizare, proiecte eco) dezvoltă abilități utile și concrete.
- **Responsabilitate** – prin acțiuni sustenabile arătăm grijă față de următoarele generații și față de viitorul Europei.

Pe scurt, în Erasmus+ nu e doar vorba de a călători și a cunoaște oameni noi, ci și de a învăța cum să fii cetățean responsabil european. Iar reducerea deșeurilor e un exemplu clar prin care putem face asta **împreună**.

Ce face U.E **acum**? (I)

Legi și directive clare – Directiva-cadru privind deșeurile, Directiva pentru plasticul de unică folosință, Pachetul Economiei Circulare.

Ținte de reciclare – 55% din deșeurile municipale reciclate până în 2025, 60% până în 2030 și 65% până în 2035.

Interdicții – produse de plastic de unică folosință (paie, farfurii, tacâmuri etc.) sunt deja eliminate.

Reguli pentru ambalaje – până în 2030, toate ambalajele de pe piața UE trebuie să fie reutilizabile sau reciclabile.

Finanțare verde – fonduri prin programe europene (Horizon Europe, Erasmus+, Green Deal) pentru proiecte de reducere a deșeurilor și reciclare inovativă.

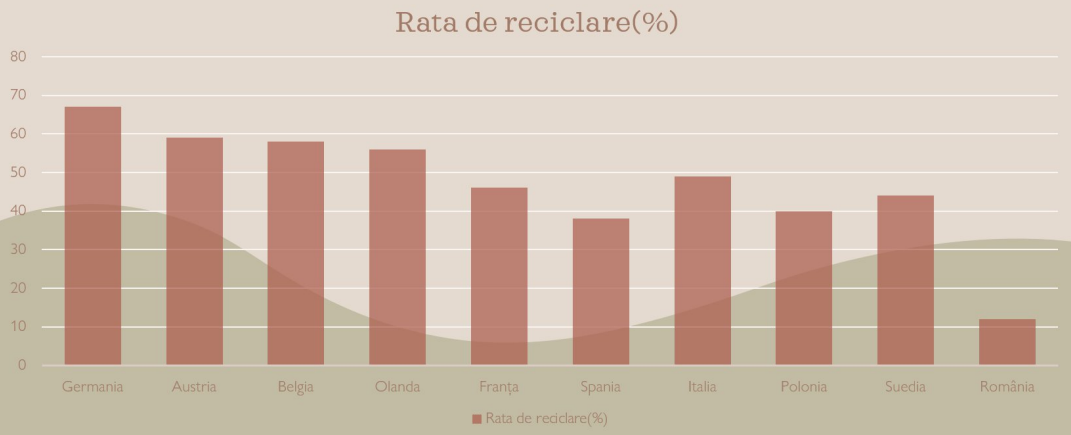

Responsabilitate pentru companii – producătorii plătesc pentru colectarea și reciclarea ambalajelor puse pe piață.

Campanii și educație – campanii de conștientizare în școli și comunități despre sortarea corectă și reducerea risipei.

Ce face U.E **acum**? (II)

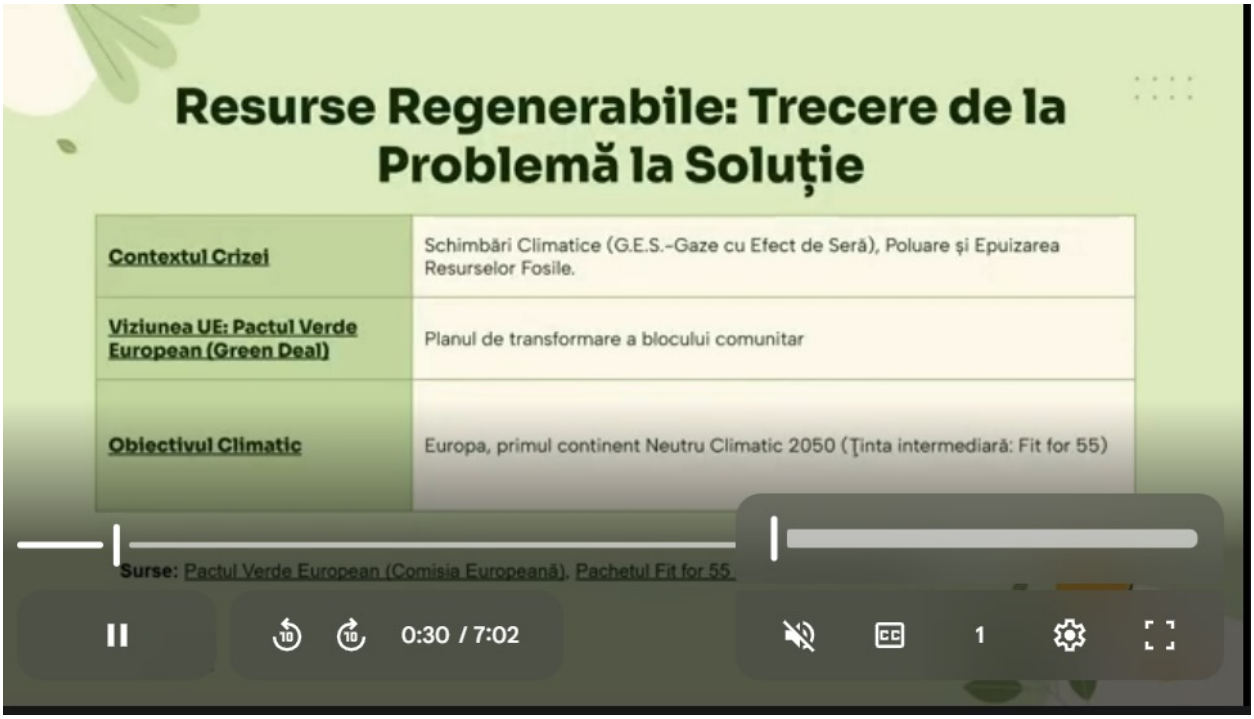

Conform celor mai recente date Eurostat (publicate în februarie 2025, pentru anul 2023), rata de reciclare a deșeurilor municipale în Uniunea Europeană a fost de aproximativ **48%**, România ocupând **penultimul sau ultimul loc (11-12%)**, în funcție de indicator și de an.
