1.Afrodita: Zeița iubirii și a frumuseții

- Originea și nașterea: Afrodita este una dintre cele mai cunoscute zeități din panteonul grec, asociată cu iubirea, frumusețea, plăcerea, pasiunea și procrearea. Conform uneia dintre cele mai populare legende, ea s-a născut din spuma mării, în apropierea insulei Cipru, motiv pentru care este adesea numită "Cipriota".

- Atribute și simboluri: Atributele sale cele mai cunoscute sunt frumusețea răpitoare și puterea de a inspira iubire și dorință. Simbolurile care o reprezintă includ porumbelul, lebăda, mirtul și trandafirul.
- Cultul și adorarea: Cultul Afroditei era răspândit în întreaga lume greacă, dar cele mai importante centre de adorare se aflau în Cipru, în special la Paphos, și pe insula Cythera. Templele dedicate ei

- Rolul în mitologia greacă: Afrodita a jucat un rol central în numeroase mituri. A fost căsătorită cu Hefaistos, zeul meșteșugurilor, dar a avut numeroase aventuri amoroase, cea mai faimoasă fiind cea cu Ares, zeul războiului. De asemenea, a fost implicată în evenimentele care au dus la Războiul Troian, promițându-i lui Paris cea mai frumoasă femeie din lume, Elena.

3.Personalități

- Arhiepiscopul Makarios al III-lea (1913-1977): Născut Mihail Christodolou Mouskos, a fost arhiepiscop al Bisericii Ortodoxe a Ciprului și primul președinte al Republicii Cipru, deținând această funcție din 1960 până la moartea sa. A fost o figură centrală în mișcarea de independență a Ciprului față de Marea Britanie.

- Ciprian al Ciprului (1756-1821): Arhiepiscop al Ciprului, a fost un martir al Revoluției Grecești de la 1821. A fost executat de către otomani prin spânzurare, împreună cu alți trei episcopi, devenind un simbol al luptei pentru libertate. Este considerat o personalitate dinamică, cu vederi largi și o educație vastă.

Concluzie

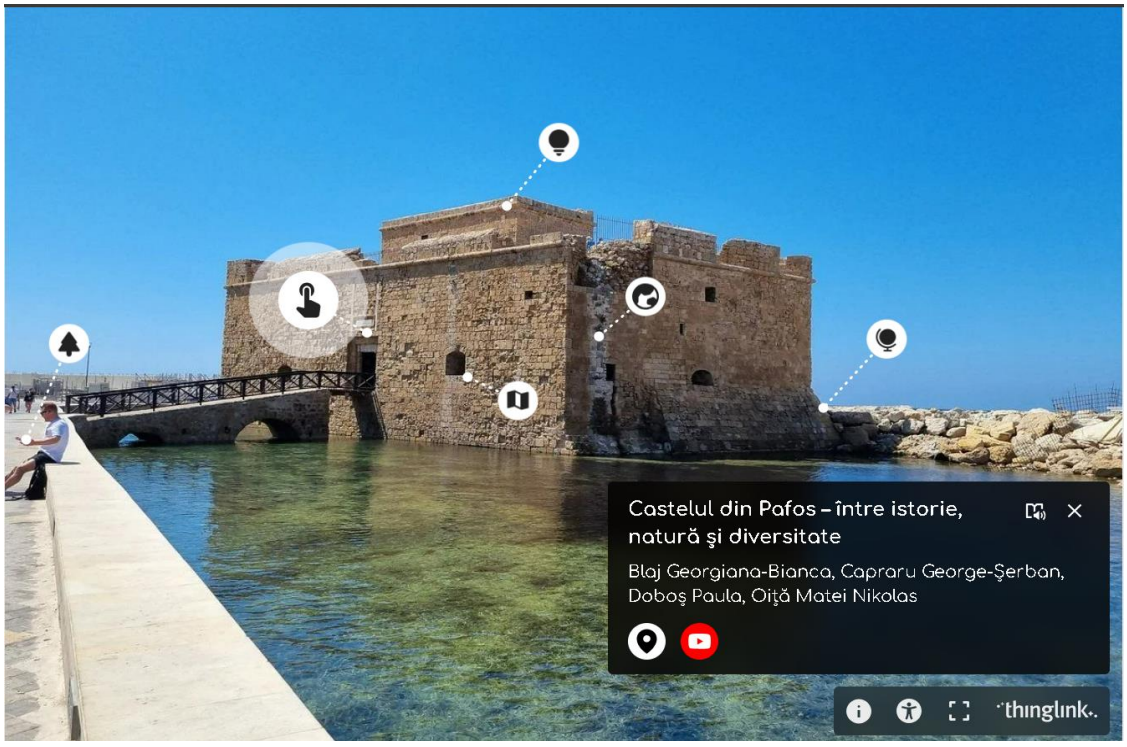

În concluzie, Ciprul este un spațiu unde mitul și realitatea se împletesc: de la nașterea atemporală a Zeiței Iubirii și până la sacrificiile celor care au luptat pentru suveranitatea sa. Este o insulă definită de frumusețea sa naturală și culturală, dar și de forța eroilor care i-au asigurat libertatea.
