Context istoric și începutul

În 711, după Bătălia de la Guadalete, musulmanii au cucerit aproape întreaga Peninsulă Iberică, lăsând doar regatele creștine din nord să reziste. Regatul Asturia, condus de regele Pelayo, a fost primul să reziste și să înceapă lupta pentru recucerirea teritoriilor pierdute. La Bătălia de la Covadonga (722), victoria simbolică a lui Pelayo a marcat începutul Reconquistei. De-a lungul secolelor IX–X, regatele creștine din nord (Asturia, Leon, Navarra și Castilia) au început să se extindă, iar lupta contra maurilor a fost justificată religios. Creștinii considerau Reconquista nu doar un conflict militar, ci și o misiune divină pentru a restabili creștinismul în teritorii considerate sacre.În 711, după Bătălia de la Guadalete, musulmanii au cucerit aproape întreaga Peninsulă Iberică, lăsând doar regatele creștine din nord să reziste. Etapele principale

Reconquista a fost un proces lent, desfășurat pe parcursul a aproape 800 de ani, cu etape semnificative de expansiune. Secolul XI a fost un moment de avans considerabil, cu cucerirea orașului Toledo (1085) și victoria asupra maurilor la Bătălia de la Las Navas de Tolosa (1212). Aceste victorii au accelerat prăbușirea Califatului de la Córdoba, iar regatele Castilia, Aragon și Navarra au început să preia controlul asupra regiunilor sudice ale Peninsulei. Între secolele XII și XIII, importante orașe și regiuni, precum Valencia și Sevilla, au fost cucerite, consolidând puterea creștinilor în sudul Iberiei. Regele Ferdinand al III-lea al Castiliei a finalizat cucerirea Andaluziei în secolul al XIII-lea, punând capăt dominației maure în majoritatea Peninsulei.

Căderea Granadei și sfârșitul Reconquistei

Granada a fost ultima redută a maurilor, sub conducerea dinastiei Nasrizilor. În secolul XV, regatele creștine din nordul Spaniei au crescut în putere și au început să asedieze Granada. În 1492, după un asediu îndelungat, regii catolici, Ferdinand de Aragon și Isabella de Castilia, au cucerit Granada, punând capăt Reconquistei și controlului musulman asupra Peninsulei Iberice. Căderea Granadei a marcat o victorie simbolică și religioasă pentru creștinism, dar și un punct de cotitură în istoria Spaniei. Același an 1492 a fost marcat și de expediția lui Cristofor Columb în Lumea Nouă, un alt moment de mare semnificație pentru Spania și pentru Europa.

Consecințe

Reconquista a avut un impact profund asupra Peninsulei Iberice, unificând regatele creștine sub o singură coroană și consolidând națiunea spaniolă. După căderea Granadei, regii catolici au încurajat omogenizarea religioasă, inițiind expulzarea evreilor (1492) și, ulterior, a musulmanilor. Aceste măsuri au dus la crearea unui stat spaniol bazat pe un unic fundament religios catolic. Reconquista a influențat profund cultura și arhitectura iberică, lăsând în urma sa elemente mudejar, un amestec de stiluri musulmane și creștine. În plus, unificarea politică a pregătit terenul pentru expansiunea globală a Spaniei și pentru nașterea unei mari imperii coloniale
