Sunt o persoană curioasă și pasionată de științele exacte. Printre pasiunile mele se numără:

Robotica

Pasiunea aceasta pentru robotică cred că a apărut datorită faptului că am fost (și încă sunt) înnebunit de Lego. De când mă știu mi-a plăcut să fac orice îmi trecea prin cap cu blocurile astea. Pot să spun că mereu am avut o atracție față de toate lucrurile mecanice care există (probabil motivul pentru care îmi place fizica).

Robotica

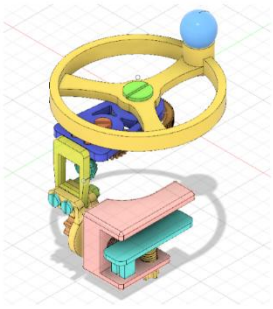

Pasiunea aceasta pentru robotică cred că a apărut datorită faptului că am fost (și încă sunt) înnebunit de Lego. De când mă știu mi-a plăcut să fac orice îmi trecea prin cap cu blocurile astea. Pot să spun că mereu am avut o atracție față de toate lucrurile mecanice care există (probabil motivul pentru care îmi place fizica).

În martie 2024, am auzit de concursul de robotică Adfaber și am decis să mă înscriu alături de doi prieteni buni de-ai mei. Nu mai creasem un robot până atunci, dar cât de greu putea fi? Răspunsul este: MULT mai greu decât mă așteptam. Totuși, chiar dacă am început încet, în timp am învățat și am devenit din ce în ce mai bun și mai confortabil cu întreg procesul. A fost puțin stresant, dar am iubit fiecare clipă din acest proiect. La final, am realizat că informatica de la școală și pasiunea mea pentru creat merg mână în mână.

CAD

Pasiunea mea pentru CAD (Computer Aided Design) este o consecință directă a interesului meu pentru robotică. Chiar dacă îmi place robotica, îmi place și mai mult să îmi fac eu piesele și să le asamblez. Așa că, după ce am strâns suficienți bani, am reușit să îmi cumpăr o imprimantă 3D, la reducere (un Ender 3V3 SE dacă vă întrebați :3). În timp, am învățat cum să o folosesc și cum să îmi fac propriile mele obiecte. Aparent o imprimantă 3D la casa omului este un lucru foarte util. Îmi place în timpul liber să proiectez mecanisme interesante și complexe, iar apoi să încerc să le pun și în practică. Chiar dacă a durat foarte mult să învăț să folosesc software-ul, fiecare bucățică de plastic reușită îmi aduce o imensă satisfacție.

Casa de Trastámara

A fost infiintata de Henric al II-lea al Castiliei in urma infrangerii fratelui sau vitreg Petru I.

Descendeti ai acestei case au fost Ferdinand al II-lea de Aragon si Isabela I a Castiliei, care au unit in urma casatoriei lor cele doua regate, creand Spania.

Casa de Habsburg

A ajuns la conducerea Spaniei in in urma ce Carol Quintul a preluat tronul in 1516.

In total au existat 5 regi habsburgici spanioli, in timpul carora Spania trece prin "epoca ei de aur".

Ultimul Habsburg spaniol a fost Carol al II-lea, care a murit fara mostenitori. Din cauza existentei mai multor drepturi pentru tronul Spaniei, al lui Carol al VI-lea si al lui Filip al V-lea, a izbucnit in 1701 Războiul Succesiunii Spaniole, ce a durat 14 ani.

Casa de Bourbon

A ajuns la conducerea Spaniei in urma Războiul Succesiunii Spaniole, prin intermediul lui Filip al V-lea.

Conducerea lor nu este una continua, aceasta fiind intrerupta de alte case regale sau forme de guvernare:

1. Casa Bonaparte
2. Casa de Savoia
3. Prima Republica Spaniola
4. A Doua Republica Spaniola
5. Dictatura Generalului Francisco Franco

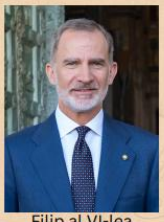

In ciuda acestor evenimente, Casa de Bourbon este casa regala de pe tronul actual al Spaniei, monarh fiind Filip al VI-lea. Acesta a devenit rege in urma abdicarii tatalui sau, Juan Carlos I, in 2014. Sotia acestuia este Regina Letizia, iar impreuna au doi copii, Leonor, prima in ordinea de succesiune, si Sofia.

Casa de Bonaparte

In timpul Razboiului Peninsular (1808-1813), Napoleon Bonaparte il plaseaza pe tronul Spaniei pe fratele sau mai mare, Joseph Bonaparte. Cetatenii regatului nu il vedea pe Joseph ca fiind regele demn, ci pe Ferdinand al VII-lea de Bourbon.

In ciuda faptului ca era rege, acesta avea o influenta foarte mica fata de fratele sau, care controla in practica armata.

Casa de Savoia

Aceasta a avut un singur membru conducator al Spaniei: Amadeo I. Fiu al lui Victor Emmanuel al II-lea, a ajuns pe tron in 1870, in urma ce Revolutia Spaniola din 1868 a indepartat-o pe Isabella a II-a.

In urma abdicarii sale in 1873, Prima Republica Spaniola a fost proclamata.
